

Just to tell you a little bit about Auto-Owners Insurance... We are a Fortune 500 company located in Lansing, MI. We are among of the top 20 largest insurance companies in the nation with over \$5.8 Billion in written premium. Our company has over 4500 associates operating in 26 states. Specifically, our IT division has over 500 associates in over 40 departments. Positions include Software Development, Database Administration, Server Engineers, UX Web Design, Web Development, Network Administration, IT Security, IT Monitoring & Recovery, BAs & QAs, and others. We also offer paid summer internships for current students.

The purpose of this message is that I wanted to reach out to the both of you and see if there might be an opportunity for us to meet with you and/or the CIS club membership. We have done information sessions with other EMU clubs about Auto-Owners, our major initiatives, our culture, and of course career opportunities. We have also done sessions including resume critiquing, mock interviews, and others to meet a specific need/topic.

We will also be in attendance at the upcoming EMU IT/STEM Job Fair on **Thursday, October 20**, in the Student Center Ballroom. It might be good timing have a session with the CIS club before the fair so that we can provide some insight into Auto-Owners and our culture.

I welcome further discussion with you regarding how we can help members of the CIS club succeed in their careers. I look forward to hearing from you!

Have a great day!!

Ray.
